

# JOINT INNOVATION NETWORK

Data Driven Innovation in the fight against COVID-19 and future pandemics

# About the Network

---

In the fight against Covid-19, innovators are needed more than ever.

It is a global crisis and joint innovation is a chance to be taken to achieve faster results, both for now and for the future.

With the support of the German Federal Ministry of Economic Affairs, Allymatch GmbH, is currently establishing an innovation network

- with selected tech companies, application partners, and research institutes from Germany, Canada, and the USA
- for bilateral projects between German and USA or Canadian Companies
- to jointly work on data-driven innovation projects in the fight against Covid-19 and possible future pandemics

**This collaboration  
network is aiming  
to help innovators ...**

## **STAY RELEVANT DURING THE CRISIS**

By utilizing their skills and strengths to innovate and develop meaningful products with a global impact.

## **FIND INNOVATION PARTNERS**

With other innovative companies, having complimentary technical skills, to work on Research and Development projects.

## **DEVELOP PRODUCTS**

Based on data driven innovation to solve problems which are needed urgently now and in the future.

## **FIND FINANCIAL RESOURCES**

For the R&D projects which have been established by the members in our network, we will help find funding opportunities.

## **HELP CONDUCT MARKET RESEARCH**

Research and competition analysis to determine which projects can have the most impact and should move forward for funding.

## **EXPAND INTERNATIONALLY**

An easier market entry in Germany and in North America during and/or after the pandemic.

# **Who Are We?**

**NETWORK ORGANIZER, REGIONAL COORDINATOR, AND MEMBERS**

## NETWORK ORGANIZER

Allymatch GmbH is a deep-tech company located in Mainz, Germany. Allymatch specializes in cloud-based software solutions that automate time-consuming and research-intensive business processes. With data driven innovation allymatch enables increases in efficiency, especially in research-related processes and helps innovative companies to boost innovation and drive growth.

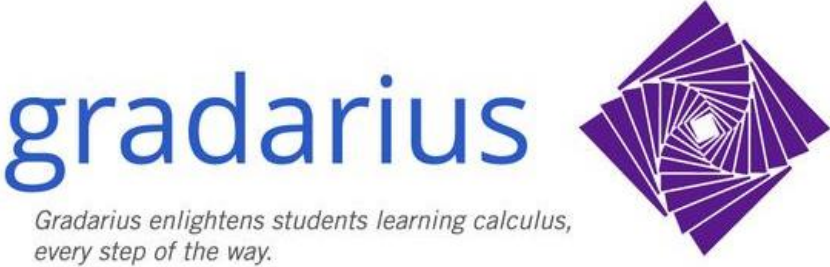

## REGIONAL COORDINATOR USA

The New Jersey Innovation Institute (NJII), an NJIT corporation, was founded in 2014 and helps turn ideas into workable solutions across six divisions: biopharma, data and advanced technology, defense and homeland security, entrepreneurship, healthcare delivery and human capital.

NJII combines the vast resources of NJIT, strong and far-reaching industry and government relationships, and proven methods for building industry-centric ecosystems to help drive innovation and deliver solutions that make a direct impact on the economy and the health and welfare of its participants.
